Camellias

Planting camellias in your garden is an investment which repays you in increasing value and enjoyment from year to year. Planting a camellia as a memorial for a dear departed one, or to mark the day for a new-born baby, is a worthwhile pleasure for all in the coming years as it is not unusual for camellias to live past the century mark.

We extend to you a cordial invitation to visit the nursery during the blooming season and welcome any inquiries you may have concerning your camellia problems.

Our stock is all first class, lath house grown and is in fine, healthy growing condition. Most plants are balled and burlapped while others are in containers.

With every purchase of a plant we include a copy of our booklet on the history, culture and care of camellias which deals with the practical knowledge of growing camellias under garden conditions. This booklet sells for twenty-five cents a copy when purchased alone or through the mail, but is free with purchase of a plant.
